

# Parent feedback Autumn Term survey 2023

The Autumn term parent feedback survey in December 2023 - 20% responses from across the school.

All of the responses said:-

- The starting information parents received was useful and informative
- The settling session was a good opportunity for parents and their child to see the setting and to get to know their key person.
- The settling in process in September worked well children and families.

## Some positive comments about the settling in process:-

My child has settled in very well

The gradual settling in process worked well for my child and supported their emotional wellbeing

Very adaptable and catering to different needs

My child began to be more interactive with us, they speak more and are really curious

Chance for us to see the setting, get to know the teachers and discuss needs

You guys were very catering to our needs. My child didn't need as much time to settle in as we first thought but really appreciated the options available to us for settling in

## Some positive comments about parent meetings:-

Fantastic support  
and help  
received for my  
autistic child

We had a number of  
meetings that were all really  
helpful. As my child is non  
verbal it was really good to  
get that feedback as we  
can't ask them to tell us

I've always received  
information about  
my child and kept me  
posted about their  
progress

With meetings regarding  
my child's SEND has been  
brilliant and it has helped  
me understand my child in  
a school setting and get  
everything in place to help  
them going forward

Opportunity to  
informally talk to  
the room teachers  
and ask questions

Staff are professional and  
provided me with  
information how my child  
is doing and will be  
learning next

# Feedback about parent sessions

You said...

We will ...

Is it possible to run coffee mornings on different mornings, not always Fridays

We endeavour to ensure that we change the day of the coffee mornings / afternoon tea so that they are not always on a Friday. We have planned them on different days this week

Due to living a distance away and walking, attending coffee morning for a short period of time means that there wouldn't be enough time to get home and back again

We will endeavour to look at how we can incorporate coffee mornings with a parent training session or parent meeting time. However timings of the nursery sessions can impact on this.  
We always have coffee sessions at drop-off or pick up times.  
We will look to how we can welcome families who start with us during the school year.

Fantastic nursery,  
incredible staff and  
facilities

It was lovely to see during  
Christmas how the  
sessions are run,  
especially how children  
engage during bucket time  
and snack time.

My child has been slowly settling  
in the SEND class and also his  
assessments

Really happy with how my child has gotten on  
so far. They love attending and they have really  
settled into it well. We really appreciate that  
they are able to go into the mainstream class  
with their extra needs

I would like to  
appreciate all the  
care and support  
given to my child at  
nursery

So far you had been amazing, even  
that we just moved and it takes me 40  
minutes to walk every morning. I  
won't change you guys for any other.  
The progress can be seen, my child is  
happy, you are kind and patient with  
them. For us as parents nothing is  
more important than this. Thank you  
so much for all your efforts and  
support!
